C. W. ROSSELL.

Shooting at the Butts.

About twenty five marksmen attended the weekly shoot at the Rifle Butts on the 1st. Good scores were difficult to make, owing to the variable wind. Dr Walton headed the list with 31, S. C. Elliot 24, and Art Graden 3d. A prominent real estate dealer, on making his first bullseye, was presented with the gold tipped cigar. The new stunt of shooting at captive balloons was tried out, and tested the skill of the marksmen. Following is the list of scores: Causton 2, Robertson 2, M McKinlay 2, C Kimmerley 1, S. C. Elliot 1, Joe Miller 1, Dr Walton 1, Art Graden 1.

The Best Show Yet

Stony Plain's 1923 Chautauqua opened on Saturday last, the 4th, continuing on Monday, Tuesday, and Wednesday. Throughout the whole four days the programs were of a very high order, and the unanimous local opinion is that the general high standard of entertainment had been maintained.

As most of The Sun's readers were present, a detailed report of each day's entertainment will not be attempted. The outstanding features of the four days and those which earned much commendation were: Prof. Dietrich's lecture "The Immensity of the Universe"; the Eiler Willoughby Ladies' Orchestra; a Mr. Eino J. Tarnell, the One Man Band.

Ray's Notes.

It's so funny the men I want to whip are either so big I can't whip 'em or so small I'm ashamed to.

I'll say tough luck coming of driving an auto and being run over by an ice wagon.

LOCAL NEWS.

Mr Geo. Oppertshausen and family have gone to Ontario.

Mr. T. Marcon has gone to Kamloops.

Mr. J. Messenger is now with the International Harvester Co at Stony.

Johnny Eberhardt has returned to his home at Edson. Mr B G Powell and family have moved to their home at Inga, from their cottage at the Beach.

Mr and Mrs Tighe, Edmonton, were week end visitors with Mr and Mrs Cavenagh.

Miss A Wolf, Edmonton, is visiting her parents at Glory Hills.

Jack Shearer and family, Calgary, were visiting friends in this district this week.

Mr Edwards is filling the teller's cage at the Bank of Commerce this week.

The Grade 1 exam. returns have arrived, with no names in the list which look familiar.

Barley cutting commenced Friday last on the Government Farm.

Stony Plain Town Council holds its regular monthly meeting tomorrow evening.

The Agricultural Society directors meet in the Town Hall this (Thursday) evening.

The School Board has reduced the number of teachers at the local school from five to four.

Owing to the illness of Secretary Pidgon, the meeting of Inga Councillors, billed for Friday last, had to be postponed.

Stony's implement men are busy setting up binders in preparation for the harvesting of the big crops in this district. Two weeks from now it is predicted that thousands of binders will be at work in the immense grain areas.

Young Val Mohr pitched a very nice game for Duffield ball team on Sunday last, when the Duffielders beat Wabamun 14 runs to 13.

During the month of August services will be held in the Methodist Church every Sunday at 11 a.m.

The Boys, old and young, will note with interest that Ringling Bros. Circus will be in Edmonton, Sat., Aug. 11.

U F A Local holds its next meeting, Saturday night next at 8.30.

HOT MEALS are being served every day at Pfeifer's Restaurant, next to Freifeld's Departmental Store.

I can provide you with a Life Assurance Policy to suit your particular needs. R. B. Brooks, local agent for The Sun-Life Assurance Co.

GET IT at HARDWICK'S.

This is the Latest Week for APRICOTS. Get Them NOW.

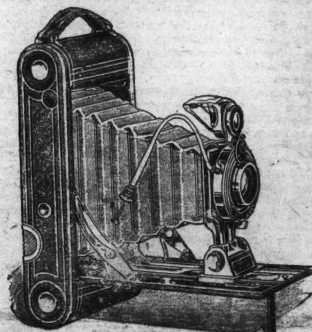

CHERRIES are almost over, but we can still supply.

B.C. CUCUMBERS are coming in Quantity now, and are quite cheap.

Complete Stock of HARVEST WEAR of All Kinds.

For particular people-

"How good it smells"—for it is packed fresh roasted, and the doubly sealed can preserves its rare aroma and flavor.

Why Be Pessimistic?

It is not wise to be unduly optimistic and rely on prospective profits and advantages which may not materialize. But what is gained by the individual, the community, or the nation from the habit of constantly looking at the dark side of things which seems to have become ingrained into the nature of some Canadians? To hear some of these croaking birds of ill omen, one would be led to believe that Canada had no future but one of bankruptcy, that blue ruin stared us all in the face, and that, individually and collectively, we were headed for disaster.

The man or woman with a perpetual frown is about the most disagreeable and least to be envied person in the world. Never happy or contented themselves, their mission in life seems to be to bring discontent and unpleasantness to others. And the remarkable fact is that these chronic preachers of blue ruin can point to nothing intrinsically wrong in Canada's economic condition upon which to build a foundation for their complaints.

On the other hand, facts and figures can be adduced in a positively staggering array to prove that conditions in Canada are steadily improving, that compared with other countries this Dominion is more than holding its own, and that while many countries are still struggling in the aftermath of the Great War, Canada is not only rapidly overtaking her old pre-war prosperity, but is on the high road to the attainment of a position of power and strength unequalled in the past.

Western Canada had, on the whole, a fair crop in 1922. True, it was not in some respects a highly profitable crop, but the proceeds nevertheless did effect a very substantial reduction in the total of the farmer's liabilities. It paid many a farmer's long standing account with merchants, who in turn paid wholesaler and manufacturer, and thus reduced their bank indebtedness. Millions of dollars were paid on farm loans and mortgages, in principal and interest. All this money was not lost? It has passed through various channels, and has gradually caused out again through the banks into circulation and in the promotion of productive enterprises of various kinds.

The effect is seen in Canada's trade returns. This Dominion exported goods to other parts of the Empire to a value of \$452,761,634 during the year ended June 30 last, as compared with \$348,921,130 during the preceding twelve months, an increase of over one hundred million dollars. Outside the Empire our trade is on the increase with almost all foreign countries.

In wheat alone Canada exported over eight million more bushels in the year ended June 30 last than in the preceding year, and at the same time our export of flour enormously increased, going into more than fifty different countries.

In the year ended June 30, 1923, Canada exported 22,569,000 pounds of butter, as compared with only 8,996,773 pounds the previous year. Cheese exports gained about the same, but milk and cream largely increased.

Canada exported 50,462 Canadian built passenger automobiles during the fiscal year just closed, as compared with less than 20,000 in the preceding year, while freight automobiles numbered 5,175 as against 1,671. Automobile parts, bicycles, etc., showed like large increases.

This healthy development of Canada's export trade, of which the above are but sample instances, is the true sign of the country's economic progress. Exports bring money into the country, and it is through the upbuilding of our export trade that we are going to be able to pay the interest on and ultimately pay off the war debt of Canada, while at the same time providing for the further development of our natural resources.

And this season Canada has every prospect of harvesting the largest crops in its history, for, despite little set-backs here and there, it is nevertheless almost a certainty at the time of writing this article that a banner crop will be harvested, which means the production of millions of new wealth, and the wherewithal to pay off more liabilities and add enormously to our export trade, thus giving an impetus to all lines of productive activity throughout the Dominion.

What ground therefore is there for all these blue ruin talk? What reason is there for discouragement? Such an attitude is dishonest, and being dishonest it is harmful to the individual who indulges in it, and harmful to the country as a whole.

Vancouver Grain Exchange

Formation of an active grain exchange for Vancouver which will function for the handling of the 1923 crop through this port is now under way. The charter seats will be disposed of to members of the Vancouver Grain Exchange and Vancouver Merchants' Exchange.

No Offence

Mrs. Elderly.—"The insulting wretch!" He asked me if I remembered the dreadfully cold winter of 1869—"think of it!"

Mrs. Keen—"Oh, I'm sure he didn't mean to offend you, dear. He probably didn't know what a bad memory you have."

Lemons were at one time considered by the Romans an excellent poison.

A bee isn't necessarily angry when it stings—the victim is.

Mother and Her Baby Are Relieved of Eczema

Mrs. Peter A. Palmer, Salt Burn, Sask., writes: "Dr. Chase's Ointment has completely relieved me of eczema and my baby, who broke out in eczema. A few applications were all that was necessary in her case. Dr. Chase's Ointment has been worth a hundred dollars to me—before using it I had spent a great deal more than that in unsuccessful treatment from doctors. We have also used Dr. Chase's other medicines, the Nerve Food having restored my health after suffering from severe nerve trouble when a girl."

DR. CHASE'S OINTMENT

50 Cents a box, all dealers, or Edmondson, Bates & Co., Ltd., Toronto

Vancouver As Grain Port

With Increased Facilities Will Soon Be in Position to Handle Vast Amount of Grain

Vancouver will have shipped about 15,000,000 bushels of grain when the crop year 1922-23 draws to a close this summer, according to statistics issued by the Vancouver Merchants' Exchange. During the previous crop year about 6,750,000 bushels of grain had been shipped. Up to the end of June, 18,576,587 bushels of the 1922 prairie crop had passed through Vancouver.

Lack of ships was the only thing that could prevent Vancouver from becoming a greater grain port, Hon. J. H. King, Federal Minister of Public Works, declared. With the increase in Government handling facilities and the building of private elevators, the port would, he said, be in a position to handle a vast amount of grain.

Stomach Cramps

Yield to "Nerviline"

When doubled up at midnight with cramps you don't feel like experimenting; what you want is something to remove the cramp. Nothing acts so effectively as Nerviline. Take twenty drops in a little sweetened water, and quick as a wink the cramp is gone. Nerviline is about five times as strong as most medicines, and because so strong, only a small dose is required to give instant effect. For stomachic grip, fermentation, cramps, etc., Nerviline should be kept in every home. For sore throats get "Nerviline" today. See at dealers.

A Wonderful Instrument

Geophone Detects Sound Long Distances Through Rock and Earth

The geophone, invented during the war by the French to detect underground mining by the Germans, has been developed for peace-time use by American research agencies. The instrument is along the seismograph idea, purely mechanical in action, and makes it possible to hear long distances through rock and earth. Under suitable conditions sledge pounding has been detected over 3,000 feet through solid rock in a western metal mine, 2,000 across feet through coal and about 300 through clay.

GUARD BABY'S HEALTH IN THE SUMMER

The summer months are the most dangerous to children. The complaints of that season, which are cholera infantum, colic, diarrhoea and dysentery come on so quickly that often a little one is beyond aid before the mother realises he is ill. The mother must be on her guard to prevent these troubles, or if they do come on suddenly to banish them. No other medicine is of such aid to mothers during hot weather as Baby's Own Tablets. They regulate the stomach and bowels and are absolutely safe. Sold by medicine dealers or by mail at 25 cents a box, from The Dr. Williams' Medicine Co., Brockville, Ont.

Should Have Hot Lunch

It is contended by those who are experienced in the country school work that the physical and mental attainments increase when nutritious food is provided. The hot lunch is looked upon as a contributing factor in promoting better conditions in the rural schools.

Keep Minard's Liniment in the house

Flying in the Arctic

Even Conditions Prevail Fife of Wind Pockets and Mists

Giving a flying report regarding the Arctic as a flying terrain, Lieutenant Dietrichsen is quoted as follows by the Aftenposten:

"Once one has risen above the mountains, the mists vanish and weather conditions become extraordinarily good and free of wind pockets. The further north one proceeds the better becomes the possibilities of good and safe landing places among the vast flat tracts of ice and snow-fields."

The Lieutenant also expressed his firm conviction that the Polar flight was only a matter of time.

Lieutenant Dietrichsen is one of the airmen sent up to Spitzbergen by the Norwegian Government in connection with relief measures for Amundsen.

Ask for Minard's and take no other

W. N. U. 1484

For Wear On the Street

Use Cuticura Talcum Daily For The Skin

After a bath with Cuticura Soap, and warm water Cuticura Talcum is soothing, cooling and refreshing. If the skin is red, rough or irritated, anoint with Cuticura Ointment to soothe and heal. They are ideal for all toilet uses.

See 25c. Ointment 25 and 50c. Talcum 25c. Sold throughout the Dominion, Canadian Drug Stores, Limited, 140 St. Patrick, W. Montreal. Cuticura Soap shaving without soap.

New Financial Record

A new financial record was established by Canadian houses in absorbing immediately a bond issue of \$22,500,000 for an additional equipment on the Canadian National Railways. The bonds carry 5 per cent. interest and run for fifteen years. None of the money was raised from outside sources.

Miller's Worm Powders are a pleasant medicine for worm-infested children, and they will take it without objection. When directions are followed it will not injure the most delicate child, as there is nothing of an injurious nature in its composition. They will speedily rid a child of worms and restore the health of the little sufferers whose vitality has become impaired by the attacks of these internal pests.

Dairying Makes Headway

The dairy industry continues to make headway in the province of Alberta, 15 more creameries being in operation this year than in 1922. It is estimated the total creamery butter production will be about 18,000,000 pounds, 3,000,000 pounds more than last year. There is a considerable increase in the acreage of fodder crops, particularly in corn.

Nearly one thousand of the relatives of men who fell in the Ypres salient, recently made a pilgrimage to the war graves in France.

Have you shined your shoes today?

2 IN 1

Shoe Polish Saves You Money

Nine Thousand More Farms

The increase in the number of farms in Manitoba in the last decade has been about 9,000, according to census figures, or at a rate of nearly 1,000 a year. The province has now more than 53,000 occupied farms with an area of over 14,000,000 acres, the average size of the Manitoba farm is 274.2 acres. The value of all farm property in the province, based on the census 1921, is placed at \$656,500,961.

Holland's Population

Although Holland has less land than either Denmark or Switzerland its population of 7,000,000 exceeds the combined populations of both.

ASPIRIN

UNLESS you see the name "Bayer" on tablets, you are not getting Aspirin at all

Accept only an "unbroken package" of "Bayer Tablets of Aspirin," which contains directions and dose worked out by physicians during 22 years and proved safe by millions for

Colds Headache Rheumatism
Toothache Neuralgia Neuritis
Earache Lumbago Pain, Pain

Handy "Bayer" boxes of 12 tablets. Also bottles of 24 and 100—Druggists. Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Mono-acetic acid of Salicylic acid. While it is well known that Aspirin means Bayer Manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

The Call Of The Open Both Impulse And Promise To Settlers From Overseas

(By Noel Inchausti In Yorkshire, Overseas)

Mr. Lloyd George's description of Canada as "a land growing hard corn and hardy men," conjures up in the mind of people who know little life of its vast, fertile spaces some thrilling impressions of the conditions under which both corn and men are grown.

One does not know at what to marvel most—at the rashness, ignorance and optimism with which some men start undertakings of quite peculiar and complicated difficulty, or the determination with which, once they discover mistakes or see the real nature of the tasks before them, they "hold down" their propositions until they turn them into success.

Since the war we have heard a little less about the despatches of the British race. Even now, however, there are "superior" people, living in sheltered ease, falling into the habit of speaking and writing much about the type of manhood the Empire needs, as though nothing but their combined exhortations could really keep the Empire "up to scratch."

I should like to take a whole shipful of those people to Canada just now and put them in touch with the soldier settler on the prairies and in the bush. There they would get a tonic decidedly stronger than any they themselves could dispense.

They would meet men who seem undaunted by flood, fire or tempest; just as they persist until they subdue the bush, break rough soil into their service, meet loss with redoubled energy, and turn failure to "glorious gain."

I like the phrase they have got out there. Field supervisors, who act for the Soldier Settlement Board, say men are "battling through." It is the same in peace as war—and "peace hath her victories no less renowned." Take this for victory. Two or three years ago in British Columbia there were strips of bush so dense that nowhere was there space enough for a single log cabin or even a tent. Nature had run riot. Today, men who had the luck to settle there have cleared holdings ranging in size from three to ten acres, and have not only their cabins, but substantial prospects of rich homesteads and of expanding prosperity. They know out there how to solve the housing problem with their own strong right arms. So far from bemoaning the past they have had to play in answering the challenge of Nature, they are thankful for what they feel is life made spacious.

That is the average way of "battling through." First the clearance and that little rustic cabin; then the experimental cultivation of the soil, the slow adaptation of means to ends that look fairly sure, and the forging of links with markets; and, finally, the farmhouse worthy of woman's pride and art.

"I have taken the average case first. Let me now take an epic that represents the more amazing things that can be told of the Great West. I have written of men undaunted by fire and flood and tempest. That was not merely a trick of language. I had wonderful facts in mind."

There is a man whose little place was burnt right out by fire that swept the countryside. Slowly had he got the home together—his holdings, furniture, fancies round his land—and his fields were under tillage. The fire came. Not a stick, not a growing thing was there left to him. Fancy thousands and thousands of men would have been utterly broken in spirit by a misfortune so devastating. But this man wasn't.

When the field supervisor went to see him he was putting out the still smouldering fire on his "holdings" and thinking not so very much about the damage the fire had done, but a great deal about the fact that it had cleared a large area of bush for him. So he began again, and that land, fertilized by fire-ash, set him on his feet by producing one of the grandest crops of roots ever seen in that land of big and startling things. What about that for "battling through?"

And what of this? Near Portage la Prairie is a married man with four children, who bought an unimproved farm of eighty acres. The first winter he cut logs, hauled them three

miles, sawed them, and built a house. Then, there were three bad years—failure of crops, accidents, everything seeming to go wrong. But this settler was actually optimistic when 1925 began, broke up more land and sowed it. It received an additional loan from the Settlement Board, and got pigs and cows.

His farm is near a river, and at the crucial moment in his affairs the river flooded. His house soon stood two feet deep in the flood tide, and he had to swim all his stock across the river and to wade four miles for food. If water could swamp his little farm by failing he was in such a position that his success was shown to be a foregone conclusion.

I like the vision of these settlers in what they call out there "God's own country." It is a land where men draw from Nature a stimulus and an inspiration that no city man anywhere, and few "old Englanders," can hope to share—a land where they get into the closest contact with the elemental, the eternal forces of life, where "the call of the open" is both impulse and promise. The conditions there do test the very fibre of men. But most of the men go on and on, greater and greater as they rise superior to circumstances, grateful for a scheme which puts opportunity into their hands, which rewards them for effort and enterprise, and which gives a constant encouragement of the counsel "Patience yet awhile."

Making Afghanistan Modern

City Has Added Radio Station to Other Improvements

Citizens of Afghanistan, in their effort to become modern, have established a radio station at Kabul. This follows the opening of the first telegraphic communication between Afghanistan and India. There is now a telephone line from Kabul to Kandahar, and it is possible to travel by automobile between these cities.

Since the abolition of slavery in January of 1921, great strides have been made in education in Afghanistan. There is a boys' school, caring for 150 youngsters under 12 years of age, and a school for women, both at Kabul, and several primary schools have been set up in the provinces. Compulsory school attendance has been decreed, though at present scarcely one person in a thousand can read and write. For the first time in the history of the country a press has come into existence, and five periodicals already have been established.

Will Eliminate Postage Stamp

New Marking Device Is Approved By Postmaster-General

An electrically-driven postage meter that will seal and stamp an envelope, marking the requisite postage, all in one operation, has been approved by the Postmaster-General at Ottawa and there are indications that the time is not far distant when this device will entirely do away with stamps. Several of the new meters are already in operation in Ottawa and these are said to be assisting immeasurably in the dispatch of mail. With their general use in the household of the great saving of many thousands of dollars Canadian home, it is expected that the device will be effected in the post office department in the manufacture and dispatching of postage stamps. Each machine is furnished with a permit number and is under direct control of the department.

So There, Smarty!

"The difference between a woman and a glass," said the funny fellow, "is that the glass reflects without speaking, while a woman speaks without reflecting."

"And the difference between you and a glass," said the sharp girl, "is that the glass is polished."—Auckland Weekly News.

What a "Round Robin" Is

A "round robin" is a petition signed by a number of persons in circular form. By placing the signatures in a circle, undue prominence to any particular person is avoided.

Will Attempt To Fly Around World

Portuguese Airmen Intend to Make Start Next Spring

Admiral Cago Continho and Commander Sacadura Cabral, the two Portuguese airmen who flew to Brazil last year, intend to fly around the world, starting next spring. The voyage is to be divided into three stages: Lisbon to Japan, Japan to Newfound-land, Newfoundland to Lisbon, a different airplane being supplied for each stage. The total sea mileage is estimated at 19,500; and the route is to be from Lisbon via Cape, Aleppo, Delhi, Calcutta, Rangoon, Bangkok, Shanghai, Yokohama, Petrograd, Dutch Harbor, Vancouver, Winnipeg, Quebec, Azores.

The number of hours of actual flight is calculated at 250, but the flight is expected to occupy five months, crossing India in April and the Atlantic on the return journey in July or August. Commander Cabral considers that the total expense will be just under \$250,000, and of this \$150,000 is already forthcoming, having been provided for by the contractors of the Brazil flight, out of their profits. Thus, although originally state money, this project is now purely private.

Should other financial difficulties be overcome, Commander Cabral will proceed to England to order the three airplanes required.

Russia Aims At Largest Air Fleet

Trotzky Hopes to Attain This In Three Years

Russia, not France, will have the world's largest air fleet inside the next three years, according to the Moscow correspondent of the *Intransigent*. Leo Trotzky, War and Navy Minister, at a recent secret meeting of his Supreme Council, ordered the purging of the Red Army of all officers whose "redness" was beginning to fade, the correspondent adds, as these were likely to become bearers of anti-Soviet propaganda. "This he declared essential if Russia was to retain mastery of her territories, and then he outlined his air policy, which calls for 10,000 military airplanes, 3,000 of which are to be ready before the end of the year."

Apart from home construction, large orders for planes are being placed with German firms, and negotiations are reported to have been attempted recently with French manufacturers, who, however, are unwilling to assist in Russia's aerial plans until they know more definitely whether a Russo-German alliance is to be perfected against France.

A Nice Pet

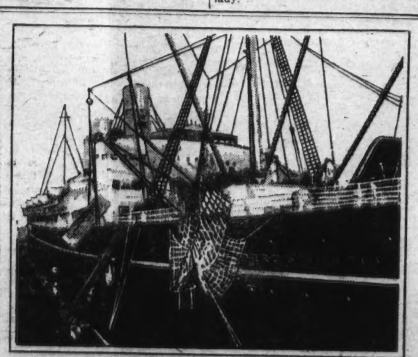

"This is a pet chameleon. You attach it to your shoulder with a tiny chain."

"Wear him with a blue gown and he turns blue. Wear him with a red gown and he turns red."

"What if I wear him with a polka dot?"

"Don't do that. Then he goes crazy."—Philadelphia Bulletin.

The Dead Sea is 1,290 feet below sea level.

Japan has decided to institute a readjustment in the issuance of public bonds for road construction with a view to perfecting the national roads within three years, at an estimated cost of 25,500,000 yen. One reason for this is pictured above. The Canadian Pacific liner "Empress of Asia" is seen loading several flat car loads of automobiles for Yokohama. Each crated automobile weighed approximately 4,500 pounds and all were lifted into the forward hold by the huge deck crane as easily as crated bicycles would be.

System Of Diversified Crops And Livestock Production Hope Of Farming Industry

Passengers Can Hear Wireless Concerts

Apparatus Will Be Installed In French Express Trains

Arrangements are being made by the Orleans Railway Company for the installation in the near future of wireless apparatus in the Bordeaux-Paris expresses that will enable passengers to listen during their journey to wireless concerts sent from Paris.

Experiments have been made on these trains which leave no doubt as to the practical success of the venture. Four loud speakers have been installed in the dining cars attached to the trains in question and have enabled passengers to listen to wireless concerts and receive the news of the day from the Eiffel Tower after leaving. Polliers on the way south and from the Radiola Company while on the way from Orleans to Paris.

Difficulties (owing to the smallness of space between the train and the bridges) of fitting the train with necessary antenna have been overcome by running three parallel wires along the whole length of the dining car.

Serves Vast Empire

Judicial Committee of the British Privy Council Occupies Peculiar Position

The Judicial Committee of the British Privy Council administers not only English but French law in Quebec and Mauritius; Roman-Dutch law in South Africa; essentially Roman law in Ceylon; Hindu law; Mohammedan law; Buddhist law; laws of vast peculiarities and social importance and yet but the laws of families and tribes. One day a judgment is written on the rights of placer miners in the Yukon Valley under the law of British Columbia; another deals with the laying out of the town of Calcutta; another maintains the rights of the god Vishnu to certain lands and profits.

Apple Growing In Manitoba

Experimental Farm Plans to Establish Orchard Next Year

Is the climate of Manitoba suitable for the growing of apples? This question has been a debatable one for many years, but a definite answer will be possible following experiments to be carried out at the Brandon Experimental Farm. W. F. Macoun, of Ottawa, Dominion Horticulturist, has approved of a plan to establish a three or four acre apple orchard on the northern portion of the farm. The land will be prepared this year and the trees set out next spring.

A Perfect Right

The lady would insist on entering the church at a fashionable wedding. Friends of the bride or the bridegroom?" asked the vicar.

"Neither," she said with pride. "I'm the organ blower's young lady."

The official organ of the International Farm Congress of America says "the wheat belt is sick" and diagnoses its ailment as "too much wheat." Agriculture in the wheat belt, according to this authority, has drifted dangerously toward a one-crop basis. There are too many farms that bring in little revenue besides the annual check for the wheat crop. The very soil is tired; and its tillers are worn out by the hopeless effort to make more acres of wheat, spell more dollars. The time has definitely passed when wheat can carry all the overhead of the average farm in the United States, supply the farmer's family with money to buy the food supply of the year and pay the cost of his own production and marketing.

The same thing applies to the average farm in this country, as farmers are beginning to learn, and accounts for the strenuous efforts being made to balance farm operations, says the Regina Leader. A widespread advertising campaign is being carried on at the present time by the Department of Agriculture at Ottawa to drive home the lesson that farming in Canada can no longer live by wheat alone. What the International Farm Congress says of the wheat belt of the United States may be said with equal truth of most wheat producing countries. There is too much wheat in the world to be absorbed at prices that will pay for production and marketing and leave a considerable profit for the producer. It is interesting to note the remedy which the Farm Congress recommends. There is no hope to be placed in government price-fixing because all schemes of that sort are based on a false theory. The benefits to be derived from stimulating consumption are likely to be offset by a resulting increase in production. The expansion of credit facilities will not correct the trouble nor will any legislative enactments. The only remedy that will permanently correct the situation is "a safe system of crop diversification and livestock production." According to the authority quoted:

All that is needed is a programme, generally applied, that will bring in revenue every week in the year, to supplement the wheat check. Poultry, dairy cows and other livestock will do this. Such a programme will provide twelve months' productive employment on the farm, instead of two. The resultant lessened production of wheat will cause an increase in price in conformity with the law of supply and demand.

So serious have become the results of the one-crop system in the wheat belt of the United States that at the forthcoming annual sessions of the International Farm Congress this problem will receive special attention and a movement will be launched which is expected will, with proper co-operation, start agriculture in the wheat producing states definitely toward the only basis upon which it can successfully stand. Similar conditions in Western Canada can be remedied only by the application of similar treatment. The rapid development of the dairy industry in this province indicates that many farmers fully realize the folly of unbalanced, one-crop agriculture; but there is still room for further improvement. The error of looking to legislative enactments to make agriculture in Western Canada profitable has been pretty thoroughly exposed in the last few years. Adoption by farmers generally of an intelligently worked out system of crop diversification, with an increase in the amount of livestock carried on the farms, will effectually solve the problem of making a comfortable living off the land in this part of the country.

Large Postcards

Canada is to have larger postcards. Possibly the authorities are anxious to encourage the transmission of something more original than the modern "having a good time—wish you were here" messages, and to permit the use of the postscript—Toronto Mail and Empire.

Glow worms are much more brilliant when a storm is coming than at other seasons. Like many other mysteries of nature, this curious circumstance has never been explained.

The Storm Bursts

The vigilantes had entered Crawling-Water Valley, they had been waiting for just this climax.

Before the first of the dives, the troop halted as Wade raised his right arm high in the air. Twenty of the men hesitated to enter the glittering doorway, while the remainder of the vigilantes waited on their horses.

A few seconds after the twenty had disappeared, the music of the piano within abruptly ceased. The shrill scream of a frightened woman preceded a couple of pistol shots and the sounds of a scuffle; then, profound silence.

Presently the twenty reappeared guarding a handful of prisoners, who were disarmed and hustled across the street to an empty barn, where they were placed under a guard of citizen volunteers.

So they proceeded, stopping now and then to gather in more prisoners, who were in turn escorted to the temporary jail, while the column continued its relentless march. The system in their attack seemed to paralyze the activities of the Moran faction and its sympathizers; there was something all most awe-inspiring in the simple majesty of the thing. By now the whole town was aware of what was taking place; men were scurrying hither and thither, like rats on a sinking ship. Occasionally one, when cornered and in desperation, put up a fight; but for the most part, the "bad men" were being captured without bloodshed. Few bad men are so "bad" that they would not rather live, even in captivity, than to their full reward in the kingdom of Satan. Frightened and disorganized, the enemy seemed incapable of any concentrated resistance. As Santry succinctly put it: "They're sure lost their goat."

Not until the troop reached Monte Joe's place, which was the most imposing of them all, was real opposition encountered. Here a number of the choicest spirits from the Moran crowd had assembled and barricaded the building, spurred on by the knowledge that a row with a running noise on one end of it would probably be their reward if captured alive. Monte Joe, a vicious, brutal ruffian, was himself in command and spoke through the slate of a blind, when the vigilantes stopped before the darkened building.

"What d'you want?" he hoarsely demanded.

"You, and those with you," Wade curtly answered.

The gambler peered down into the street, his little blood-shot eyes blinking like a pig's. "What for?" he growled.

"Well show you soon enough," came in a rising answer from the crowd. "Open up!"

Monte Joe withdrew from the window, feeling that he was doomed to death, but resolved to sell his life dearly. "Go to hell!" he shouted.

Wade gave a few fiercely worded orders. Half a dozen of his men ran to the rear, blacksmith shop from the hammers, with which to beat in the door of the gambling house, while the rest pelted a hail of bullets into the windows of the structure. Under the onslaught of the heavy hammers, and by the power of arms, the screen crashed inward, and the besiegers poured through the opening. The fight which ensued was short and fierce. Outnumbered though the defenders were, they put up a desperate battle, but they were quickly beaten down and disarmed.

Shoved, dragged, carried, and some of them cruelly wounded and a few dead but all who lived swearing horribly, the prisoners were hustled to the street. Last of all came Monte Joe, securely held by two brawny cowpunchers. At night of his mottled, blood-beaten visage, the crowd went wild.

PUTS HEALTH AND VIM INTO WOMEN

So Says Mrs. MacPherson of Lydia E. Pinkham's Vegetable Compound

Brantford, Ontario.—"I was always tired and the least exertion would me out for a day or two. I had a pressing pain on the top of my head, pain in the nape of my neck, and when I stood over I could not get up without help, because of pain in my back. I did not sleep well, and was nervous at the least noise. I keep house, but I was such a wreck that I could not sweep the floor nor wash the dishes without lying down afterwards. A friend living near me told me what Lydia E. Pinkham's Vegetable Compound had done for her so I began to take it. With the first bottle I felt lighter and got so I could wash dishes and sweep without having to lie down. Later I became regular again in my monthly terms. I have taken ten bottles all told and am now all better. I can truly say that your wonderful medicine has been a blessing for putting health and vim into a woman."—Mrs. JAMES H. MACPHERSON, 868 Grosvenor St., Brantford, Ont.

If you are suffering from a displacement, irregularities, backache, or any other form of female weakness, write to the Lydia E. Pinkham Medicine Co., Coburn, Ontario, for Lydia E. Pinkham's Private Text-Book upon "Allments Peculiar to Women."

W. N. U. 1484

"Hans! Hans! Lynch the dirty brute! Get a rope!" The cry was taken up by fifty voices.

Hastily running, the gambler beneath a convenient tree, they proceeded to adjust a noose about his neck. In another instant Monte Joe's soul would have departed to the Great Beyond but for a series of interruptions. Wade created the first of these by forcing his big, black horse through the throng.

"Listen, men!" he roared. "You must stop this! This man—all of them—must have a fair trial."

"Trial be damned!" shouted a bearded rancher. "We've had enough law in this valley. Now we're after justice."

Cheering him the crowd roared approbation of the sentiment, for even the law-abiding seemed suddenly to have gone mad with blood-lust. Wade had released the other from jail, he had been impressed with the reply to them when Santry forced his way to the front. Ever since Wade had released the other from jail, he had been impressed with the reply to them when Santry forced his way to the front. Ever since Wade had released the other from jail, he had been impressed with the reply to them when Santry forced his way to the front. Ever since Wade had released the other from jail, he had been impressed with the reply to them when Santry forced his way to the front.

"Justice!" snapped the old man pushing his way into the throng that had formed around the prisoner, a pistol in each hand. "You're talking of justice? Ain't me an' Wade been handed more dirt by this bunch of crooks than all the rest you've combined. Joe's a plenary varmint, but he's got to get something he never gave—a square deal. You hear me? Any man that thinks different can set the p'int with me!"

He glared at the mob, his sparsely grizzled mustache seeming actually to bristle. By the dim light of a lantern held near him his aspect was terrifying. A flash on Wade's forehead had streaked one side of his face with blood, while his eyes, beneath a shadowy thatch of brows, seemed to blaze like live coals. Involuntarily, those nearest him shrank back a pace, but only for a moment, for such a mob was not to be daunted by threats. A low murmur of disapproval was rapidly swelling into a growl of anger when Sheriff Thomas appeared.

"Gentlemen," he shouted, springing upon a convenient log. "The law must be respected, and as its representative in this community—"

"Shut it, you old turkey buzzard!" cried an irate puncher, wildly brandishing a bar of Colt before the officer. "You ain't representative of nothin' in this community!"

"Men," Wade began again.

"String the Sheriff up, 'guy," somebody yelled.

"By gosh of this star..." Thomas tapped the badge on his vest. "I am..."

"On the rope!" cried the bearded rancher, and his order would have been executed but for Wade's detaining shout. "Three men, who were rolling in behind him a barrel, which had taken from a nearby store, and the law was respected, and that it be permitted to—"

He stopped to sneeze and sputter, for having knocked in the top of the barrel, which contained flour, the three men had emptied its contents over the officer's head.

His appearance as he tried to shake himself free of the sticky stuff, which coated him from head to foot, was ludicrous that a roar of laughter went up from the mob. It was the salvation of Monte Joe for Wade, laughing himself, took advantage of the general merriment to urge his plea again in the gambler's behalf. This time the mob listened to him.

(To be continued)

"Armored Glass"

Experiments Being Made to Improve Texture of Glass Products

It is said that a fortune awaits the individual who shall invent a flexible unbreakable glass. "Armored glass," so-called because it contains a netting of galvanized wire and is not easily broken into small pieces, is too heavy and too nearly opaque for most uses. There is a glass of comparatively recent invention called "threeply." Although it is neither flexible nor unbreakable, it has certain advantages over other kinds. It is composed of two panes of glass with a thin sheet of transparent celluloid pressed between them and made to adhere by hydraulic pressure. It is said that a blow hard enough to shatter ordinary glass and to drive the pieces for some distance merely cracks the three-ply glass.

Paper Mills For B.C.

Speaking before the Liberal Association at Vancouver, Hon. T. D. Pattullo, Provincial Minister of Lands, announced that six separate groups of financiers were negotiating for the establishment of pulp and paper mills with the Provincial Government. He states that he expected two or three concerns would be under way in a short time.

In Tibet marriage is considered a very difficult and troublesome situation. It only takes place in wealthy families.

Search For Lost Continent

Francis J. Ford, Famous Explorer and Noted Writer, Sails on Interesting Expedition

Traces of a lost continent similar to the fabled "Continent of Atlantis," believed by scientists to have existed thousands of years ago where now is the Atlantic Ocean, will be investigated and studied in the Pacific Ocean by Francis J. Ford, famous explorer and noted writer.

Travellers, masters of coasting vessels and adventurers in the South Seas have brought back to the outposts of civilization wonderful accounts of this lost continent that uphold the beliefs of scientists.

They tell of the ruins of an ancient metropolis, once teeming with all the culture, arts and industries of a long forgotten race, now half submerged in the ocean. Rising out of the sea are the tops of gigantic and strange buildings. Coral has attached itself to the ruins, forming a picturesque atoll with a placid lagoon.

The structures are said to be Egyptian in design and resemble the pyramids discovered in the Himalay water below the strange atoll, basking in the tropical sunlight and washed by a shimmering sea.

Mr. Ford sailed from San Francisco on the S.S. Ventura of the Oceanic Line, for the South Sea Islands. He will visit Honolulu, Samoa, Fiji Islands, New Hebrides, Solomon Islands, New Guinea, Borneo and Java.

And Mr. Ford is going in the wilds alone to hunt wild tribes of natives and unfrequented spots, heretofore not visited, accompanied only by a servant, savage carrier boys and a guard of soldiers.

He will charter a "laram" steamer to explore the thousands of unknown and uncharted islands in the South Pacific.

British naval commanders will afford him protection.

Mr. Ford will record his explorations and adventures with a motion picture camera.

Sentenced to Death, No Appeal Possible

The death warrant is passed out every time a corn is treated with Putnam's Corn Extractor. It means the end of the corn. Putnam's lifts out roots, corn and branch, and never fails. Refuse any substitute for Putnam's. 25c everywhere.

Natural Gas For Edmonton

It is expected that the installation of gas services in residences in Edmonton will commence in the near future. The contract for the digging of the ditch and laying the pipe for the pipeline for gas from Viking has begun, and preliminary work has already commenced.

WHEN YOUR THROAT IS SORE

It may be only a slight cold, but just a tickling in the throat.

But little colds soon grow large and dangerous. Often they become chronic and develop catarrh and lead to consumption.

Catastrophe is the remedy. It draws inflammation and relieves the cough, cuts out the phlegm, makes breathing easy, kills any germs lodged in the mucous lining of the throat or lungs.

By using CATARRHOZONE INHALER now and again you keep the passages free from germs, and thereby prevent coughs and colds. Get the Dollar outfit. It lasts two months; small size, 50c; sold by druggists. Refuse a substitute for Catarrhozone. By mail from The Catarrhozone Co., Montreal.

Alberta Scientist Commended

American Professor Speaks of Results Obtained in Diabetes Research Work

Lettuce, bean leaves and onions contain "gluconin," a substance similar to the recently discovered "inulin," which may prove of even more value as a cure for diabetes. Professor J. J. Williamson, of the University of Minnesota, declared in an interview in New York City.

Professor Williamson said that Dr. J. B. Collip, of the University of Alberta, one of the group first to make "inulin," discovered "gluconin" after experiments with clams, oysters, yeast and mushrooms.

Successful tests with the new substance have been made upon dogs and rabbits. It was stated. No clinical tests have yet been made on human beings, but Dr. Collip was quoted as having said:

"There is little doubt that this substance will be useful in the treatment of diabetes in the human subject."

The Canadian scientist was prompted to the new experiments because of the high costs of insulin. Professor Williamson said. Gluconin, he added, can be extracted at a small cost.

Alberta Lake Fisheries

A recent survey shows that the lake fisheries of Alberta are worth \$390,000 annually to the province. Forty-four thousand hundredweight of fish were marketed last year, the greater proportion of the catch being whitefish.

When it comes to harvesting the crop, a young man is harrying the bow so many wild oats.

Enjoy thirst-

Only a few can make a perfect drive—but there's satisfaction equal to it for all of us in an ice-cold glass or bottle of this beverage.

THE COCA-COLA COMPANY
Trenton, Montreal, Winnipeg, Vancouver

Imperial Conference Will Discuss Advisability Of Guidance From Dominions

London.—In the House of Lords, Lord Strathclyde asked whether, in response to the continued demands from the Dominions for a share in the shaping of the destinies of the Empire, any definite offer which might be considered at the Imperial Conference had been made to the Dominions of seats in the Imperial Parliament.

Lord Long declared that such an offer would be unconstitutional, and to offer half a dozen seats in either House of Parliament would be farcical. The Imperial Conference would have plenty of work to do without entering into this complicated question, he added, and any such proposal should come from the Dominions themselves.

The Duke of Devonshire, Colonial Secretary, emphasized the difficulties which would be met with in arranging for seats for the Dominions in the Commons. Lord Strathclyde's question, and he was sure the solution of the problem must not be looked for in that direction.

Referring to the idea of a federal parliament, the Duke of Devonshire pointed out that this had been discussed exhaustively at the Imperial Conference of 1919. There were many objections to the proposal, the main one being that it would interfere with the autonomous rights of the Dominions to which they and the Mother Country attached the supreme importance. The Duke referred to speeches made by Premier Smuts, of South Africa; ex-Premier Sir Robert Borden, of Canada; ex-Premier W. M. Hughes, of Australia; and others disapproving of the idea, and suggested that it would be almost a danger, instead of an advantage, to the dominions.

The Assurance was given by the Duke that the question of closer association by the rapid transmission of news and the receiving of advice and guidance from the great Dominions overseas, certainly would be considered at the coming Imperial Conference.

Ireland Not At War

Court Ruling Reverses Opinion of Master in Chancery

Dublin.—A state of war does not exist in Ireland, the court of appeal decided in giving its judgment in the case of Mrs. Nora Connelly O'Brien, reversing the opinion of the master of the rolls of the chancery division, who held that civil war did exist in Ireland on June 15.

The decision was looked forward to with great interest and its announcement caused much excitement as it governs the position of thousands of prisoners held by the Government under the plea of military necessity. Despite this decision, it is regarded as unlikely that there will be any general release of prisoners, as the Government, anticipating the court's decision, has passed through almost all the stages of Dail and Senate, a bill to authorize it to continue imprisonments and other repressive measures for three months.

Russia and Japan Plan Negotiations
Tokio.—Preliminary conversations which were to pave the way to formal negotiations looking toward diplomatic relations between Japan and the Russian Soviet Government have been concluded here. It now remains for the Governments concerned to determine on the basis for the opening of a formal conference.

British Gunboats Leave for Amoy
Hong Kong.—Because of the fighting between rival Chinese factions at Amoy, the British gunboats Blonnie and Foxglove have been sent to that port. Looting is feared. The British and Japanese consuls asked for gunboats to protect foreign lives and property.

First Japanese Bishops
New York.—Consecration of two Japanese as bishop of the Episcopal Church at Tokyo and Osaka next December will mark the establishment for the first time of a Christian church presided over by natives in the Orient.

Revenue Stamps For Receipts

Postage Stamps Must Not Be Used In Future

Ottawa.—New legislation which took effect Aug. 1 makes letters, including form letters, forwarded by mail, also postcards acknowledging payment of money of \$10 and upwards, subject to the stamp tax on receipts.

One change provided for in the amendment to the Special War Revenue Act makes the maximum stamp tax collectable upon cheques one dollar instead of two dollars, as was the case formerly. But the change which will affect the general public most is the regulation stipulating that in future, banks and the Government will not accept postage stamps in collecting the tax, but will insist upon use of the special revenue stamps issued for the purpose.

Empire Extends to South Pole

New Zealand Has Control Over Dependency at Antipodes

London.—According to an order-in-council just published in the London Gazette, the British Empire now extends to the South Pole. The order states that the Ross Sea and adjacent islands and territories are a British settlement within the meaning of the British Settlements Act, and are named the Ross Dependency. New Zealand has the responsibility for the Government of the dependency, which is defined as comprising all islands and territories between the 168th degree east longitude and the 160th degree west longitude situated south of the 16th degree south latitude.

Insulin Will Be Made In Toronto

Factory Will Be Able to Supply Other Countries

Toronto.—An insulin "factory" is being built here, the laboratories of Toronto University being unable to supply necessary accommodation. The old Y.M.C.A. structure is being built and the factory will, besides providing a supply of insulin for Canada, produce the curative fluid for all countries which do not manufacture their own supply. At present insulin is made in the United States, Great Britain and Denmark.

Prohibition Postponed
Constantinople.—The application of the law prohibiting the consumption of liquor in Constantinople, which was fixed for August 1, has been postponed for the third time for another month. The censorship of letters and papers has been abolished.

New Currency For Germany

Economist Predict Gold Will Be Substituted For Mark

New York.—Early disappearance of the skidding German marks from the financial horizon of the world and substitution of a new currency on a gold basis was predicted by J. F. Deullies, noted economist and former member of the United States peace mission at Versailles, upon his arrival from Europe.

General conditions in Germany, said Mr. Deullies, were appalling and he could see no way out for her save a reorganization of her finances. If the mark was eliminated, he said, the outstanding issue probably would be redeemed in the new money at current rates.

Speaking of reparations, he declared that all foreign nations with the exception of Great Britain would endeavor to avoid the payment of their war debts. "France," he said, "wants 26 billion gold marks as reparations from Germany before she will pay what she owes Great Britain." Under these circumstances it is not likely that France will pay, as Germany cannot pay, and if France asks priority on reparations payments, then Belgium and Great Britain must suffer because of that priority.

"The situation in Europe is serious, and great peril is bound to grow out of any possible break between Great Britain and France."

Many Killed In German Train Wreck

Hamburg-Munich Express Crashes Into Standing Train

Berlin.—A great disaster occurred at the Krefeld station, at the junction of the Hanover and Cassel line, caused by a collision between the Hamburg-Munich express and a train standing in the station. Up to four o'clock 44 bodies had been recovered from the wreckage, and the estimated number of killed is 100, while 34 injured are being cared for in the hospital at Gieseler.

Identification of the killed is extremely difficult and in some cases impossible, owing to their mangled condition. The collision is attributed to the inability of the driver of the express to see the signals because of fog which had been blown into his eyes.

Cattle Shipments Exceed Expectations

Prospects for August Are Better Says Dr. Grisdale

Ottawa.—During the month of July just ended, Canada sent 4,157 head of cattle in twelve shipments to the United Kingdom, of which only 530 were fat. Discussing this new branch of Canadian business, Dr. J. H. Grisdale, Deputy Minister of Agriculture, declared that it had exceeded expectations, especially for the midsummer months, which are ordinarily dull in the cattle-shipping business. The prospects for August, he said, were for even larger shipments, ten having been arranged for already and the business would probably be double for the months of September, October and November.

Alaska Mayor Receives Medal
Pictou, N.S.—A Hector commemorative medal was presented here to the family of J. G. Grant, Wrangell, Alaska, in recognition of the fact that the Grant family had covered more mileage in attending the recent Hector celebration than any other person. He is mayor of Wrangell, Alaska. He came to the Hector celebration with five of his family.

Observing Regular Christmas

Moscow.—The Council of Commissioners has fixed upon ten church holidays, to be observed according to the new style calendar. Thus this year will be the first that Russia will celebrate before Christmas simultaneously with the rest of the world.

Majority Of Sydney Steel Workers Vote To Terminate Strike

Harvesters From Great Britain

Expect First Lot To Arrive Within Ten Days

Winnipeg.—Cable advices from London to the Canadian Pacific Railway indicate that in response to the call in Great Britain for men to help harvest the coming crop, 1,264 men had bought tickets up to July 28th.

The Canadian Pacific last winter inaugurated a campaign in Great Britain to bring out competent farm helpers for Western Canada farmers who desired them, and, though the campaign was undertaken too late in the season to fill all the demands of the farmers, yet over 1,000 permanent farm helpers were delivered to their destination. As a result, it is proposed to continue this work during the winter, and endeavor in every possible way to fill the requirements of the farmers. Both railways and the Federal and Provincial Governments are advertising for farm helpers in the States. The British harvesters are being ticketed right through to Winnipeg, and the first lot will arrive in 10 days.

Cabinet Will Hear Claim On Resources

Representatives From Manitoba and Alberta Will Attend Meeting

Ottawa.—The cabinet will hear representatives from Manitoba and Alberta on the question of the return to the provinces of their natural resources.

The matter of the control of the natural resources in the prairie provinces has been the subject of protracted discussion, between the Dominion and provincial authorities, but so far no solution satisfactory to all parties had been arrived at. Saskatchewan, which has previously taken part in these discussions, will not be represented before the cabinet next week. The Privy Council will hear the appeal of the Government of British Columbia against the ruling of the Dominion Railway Commission as to freight rates in the coast province, which it is claimed are discriminatory.

Endorse Co-operative Marketing System

Manitoba Farmers Approve Plan With Exception of Contract Form

Winnipeg.—Another step in the development of a co-operative wheat marketing system for Manitoba was made when the Executive Board of the United Farmers of Manitoba endorsed the report of its representatives who attended the Regina conference of officials of the farmers' association of the three prairie provinces last week.

Differences are said to exist between members of the board as to the form the contract with the producer should take and whether it should be drawn with the pool or selling agency, with the consensus of opinion favoring the latter; it is understood.

Venice.—Irish Republicans, followers of Eamon de Valera, are spreading their propaganda extensively here in favor of an Irish republic and collecting funds. They are distributing leaflets which say: "A truce does not mean renunciation. Mazzini's mother-country must understand us. Help."

Sydney, N.S.—The "Sydney" steel strike is over. At a mass meeting of steel workers at union headquarters about sixty-five per cent. of those present voted to end the strike and return to work. The union executive will notify the British Empire Steel Corporation accordingly.

In their resolution the steel workers complain that every man's hand is against them, and they censure people, courts, police, newspapers, and the Federal and Provincial Governments.

The steel company stated that 2,505 men were working at the plant out of approximately 3,500 who were there when the strike began.

The strike began on the morning of June 27 for a 20 per cent. wage increase and the "check-off" system of collecting union dues, which would involve recognition of their union. The resolution adopted at the meeting reads in part:

"Our funds having been exhausted, some of our low-paid members have been driven to return to work by the threat of starvation to their families. 'Everyone's hand is against us' in our effort to obtain enough food to sustain our wives and families and enough clothing to allow our children to go to school."

"We therefore, therefore, that we return to work, although none of our grievances are disposed of, but on the contrary are carried on to the future; and many of our best workmen will probably, as in the past, be unable to again obtain work in the industries of Cape Breton and so must leave this country."

Former Crown Prince Visiting Ex-Kaiser

Refuses To Be Interviewed On Royalist Activities

London.—Former Crown Prince Frederick William of Germany is staying for a few weeks at the residence of his father, former Emperor William, at Doorn, Holland, says a dispatch to the Daily Mail and Doorn. He is kept busy meeting many arrivals from Germany at the Amerfoort station, to which he drives in his automobile.

The ex-Crown Prince, says the correspondent, refused to be interviewed with reference to Royalist activities.

Replying to a question regarding what was the meaning of the summoning to Doorn of numerous German visitors, Frederick William says it is holiday time, and, consequently, visits were to be expected.

Rewarded For Bravery

Los Angeles.—Because he saved him from drowning when he was a boy of 12 in 1896, Theodore Tibbitts, wealthy leather manufacturer of Lynn, Mass., who died recently, left Mrs. Clara May Miller, nee Clara Beck, with the sum of \$250,000.

Jail Terms For Fascist Members

Taranto, Italy.—Penalties varying from 12 to 30 months in prison, besides fines, were imposed in the criminal court upon 30 Fascist found guilty of compelling their political opponents to drink noxious potions.

U.S. Claims Still Open

Lausanne.—The Turkish and United States experts compiled a formula for insertion in the proposed treaty which leaves the entire question of United States' claims open for further negotiations.

A Latter-Day Miracle.

Lots of people will argue until they are black in the face that the days of miracles are past, but this paper is in possession of facts which establish miracles can take place today as of old, though they may not be as frequent. The place in question where this miracle transpired is the town of Vulcan, Alberta, with a population of between eight and nine hundred people—a sufficient number to vouch for the authenticity of the miraculous performance. The latest record in the hands of the Standard states that there is but one church in the place and this may account in a measure why the miracle happened—but we don't say it was. Now for the miracle—the advertisers of *The Vulcan Advocate* all decided to make payment for their advertisements for three weeks and allow the paper to cease publication for that period. The whole-hearted spirit on their part enabled H. Nelson, the editor and his wife to at end the Dominion Weekly Press Convention in Halifax. This should silence all scoffers.—Vermillion Standard.

Picnic at Duffield

One of the best days of the year was recorded on the 29th, under the supervision of the Athletic Association. As usual with picnics, they could not start on time and things were somewhat crowded before the day closed with a dance in the Mewasin school house. A goodly number had lunch together and had themselves justice in the exchange of "eats". The sports for the juniors started about 2 o'clock, but "Andy" started to use his human megaphone fully half an hour before he could get a six-year old to emerge from the bushes. This part of the program was well contested after the first race. There was some sprinting and jumping in the adult portion of the sports that showed "hagbeens" and much promise for others. The house-racing was much below other years, there being only three horses in the mood to run. The football game between Keep Hills and Duffield gave everybody that had any kick in them to get out and do so. But it is quite different from football. One is "organized kicking" the other is "individual kicking." There was a good game which resulted in a "non-score" for either side. There is some promising material on both teams which, with practice, and quite a lot of theory, would make a fairly good team. The baseball game with the visiting team, Evansburg, resulted as the local boys expected. We don't know how many of them believe in auto suggestion, but it seemed that the nine from the west got the feeling of the local nine and gave them just what they expected. Evansburg returned home rejoicing in their victory. 15-3. The dance in the evening at Mewasin School brought the day to its end.

News of Duffield District.

Mr. A. H. Schinckel had a car load of coal arrive the first of the week. "Andy" must be expected a cold breeze to come along soon.

Mr. E. Race, of the University of Alberta, had charge of the service at the Hopkins Church Sunday afternoon.

The Schiederman Brothers loaded a car with wheat last week.

Angus Perry who was injured a couple of weeks ago while sawing timber, is still under the doctor's care. It is thought that the eye is affecting by the wound.

"Andy" Broese has purchased a car from one of the neighbors and is giving it a real "Cheever's" test. No accidents so far.

Mrs. Imley, who had been visiting her sister Mrs. Newton, returned to her home in Chatham, Ontario, last week.

Mrs. Carr, who has been with her sister, Mrs. Lent, left last week for her home in Manitoba.

It looks like a victory for the local nine in the Western League. They had a fairly easy time defeating Evansburg on their own diamond on the 29th.

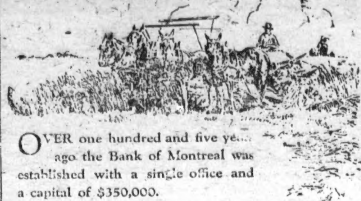

Mr. Olson decided that there was more pleasure to be had from a Ford car than from a tractor, so he parted with the tractor and now possesses a Ford. No accidents up to date.

On account of Arthur Tyrrell contracting scarlet fever, the Trustees decided to close the school for a week. We are glad to report Arthur more or less comfortable, but very much limited in his territory. This is the only case in the district and every preventive measure is in force to keep it from spreading.

Stony Plain Car Co.

The Strength Of A Bank

OVER one hundred and five years ago the Bank of Montreal was established with a single office and a capital of \$350,000.

Today, after more than a century of conservative progress, the combined capital and reserve of the Bank amount to \$54,500,000, its total assets are in excess of \$650,000,000, its six hundred Branches extend to all parts of Canada, and it has its own offices in financial centres throughout the world.

The full resources of the Bank are behind every Branch

Indians Celebrate Opening Banff-Windermere Road

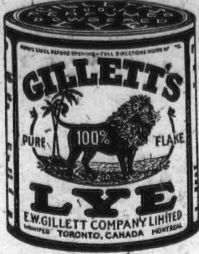

1. Indians, gaily caparisoned, await the judges' pleasure. 2. Lieutenant Governor Nichol smokes the pipe of peace—to the delight of the oldest members of the tribe (3). 4. Sir-Sic-Kimcet and the Indian chief.

THE Indian, though reticent and uncommunicative, is ever ready to show his appreciation of the fact that his pale face is a friend, a brother to him. More often than not, he takes advantage of his feted days to show this appreciation and good-will in simple ceremonies which honor the white man by bestowing upon him the name of one of their own, and a seat in their family and council circle.

The opening of the Banff-Windermere Motor Highway on June 30th occasioned the gathering of a large number of Kootenay Indians from various reserves, at Invermere, B.C. Here they entertained and were entertained by a host of visitors to the district who, having attended the opening ceremonies were really induced by the glories of the country to stay for a few days. On his occasion the Kootenays' honored Lieutenant Governor W. C. Nichol of B.C., who had officiated, with Lieutenant Governor Brett of Alberta, at the opening,

by making him an honorary chief of their tribe. Robert Randolph Bruce, a leader in Windermere and Kootenay development was also asked to enter the circle, and after the smoking of the ceremonial pipe and listening to the liturgy in the Kootenay language, was dressed in all the panoply of power, head-dress and beaded clothes, and accepted into the tribe as full chieftain, being given the name of Sir-Sic-Kimcet, which signifies "Red Sky" after a famous council chief of the tribe who has long since passed away. Mr. Bruce expressed his pleasure in a largesse of tobacco and a gift of a one-hundred dollar bank note for the celebration.

This being over the sports were resumed and prizes were awarded to the best-costumed Indian on foot, the best costumed squaw, the best caparisoned Indian on horseback, and to others for neatness of tapers and the best travois and papoose in baby trap, and for their demonstrated skill in athletic sports.

WORLD HAPPENINGS BRIEFLY TOLD

Royal assent was given to Lady Astor's bill, which prohibits the sale of intoxicating liquors to any person under 18 years.

Lieut. R. Irvine, flying a naval Curtiss seaplane at Fort Warrington, established a new speed record for seaplanes of 175.3 miles an hour.

Lord Haldane, addressing the education conference at London, protested against the expenditure of £410,000,000 on Singapore as a naval base as proposed by the government.

Ismet Pasha has informed the United States representative that Turkey can do nothing for the United States as regards the protection of Christian populations in Turkey who are Ottoman subjects.

Latvia has notified the League of Nations that it has ratified the protocol establishing the permanent court of justice. This makes the thirty-seventh state adhering to the court by act of parliament.

The restoration of the privilege extended to returned soldiers of converting a homestead preemption into a grant under the Soldier Settlement Board has been announced by the Dominion Commission, G.W.V.A.

* Lord Curzon, replying in the House of Lords to Earl Beauchamp with reference to alleged Abyssinian slavery, declared there was a good deal of slave raiding in British territory. It had been effectively checked, he said.

Twenty-five prisoners have been released from Moscow prisons through the efforts of special commissions appointed to investigate the severe sentences of Moscow courts and overcrowding in the prisons.

Mary Miles Minter, of movie fame, recently spent a nice little holiday at Winnipeg Beach, and no one discovered her under her assumed name of Miss Pauline Stedman. Minter was the newspaper of the United States were greatly mystified by the actress's disappearance.

A conference of Government representatives at Winnipeg, to determine whether further funds should be appropriated for the use of the little utilization board in carrying on bringing tests at Bismarck, Sask., adjudged without any decision having been reached.

It testifies for itself.—Dr. Thomas' Eucalypti Oil needs no testimonial of its powers other than itself. Whoever tries it for coughs or colds, for cuts or contusions, for sprains or burns, for pains in the limbs or body, will know that the medicine proves itself and needs no guarantee. This shows why this Oil is in general use.

Motorizing Dove of Peace
If some aviator wants to set a record for a long-distance flight, why doesn't he get up a machine patterned after the Dove of Peace—the trout Nova.

Must Give It All Back
If such a thing could happen as a man owning the world, he'd have to give it to somebody else in seventy years or less.—Detroit Free Press.

German Saved French Soldiers

Plunged into Rhine and Rescued Two From Drowning

Forgetting the general hatred felt by Germans toward the French when he saw his endangere, Max Fladt, an inn keeper at Kehl, plunged into the Rhine and saved two French soldiers from drowning.

When he was thanked personally by the French General commanding this area and asked if he desired anything as a reward, Fladt pleaded for the lives of the seven Germans recently sentenced to death on charges of sabotage. The General promised he would forward his petition to the French Government.

When You Use Pills You Need Them Active

Dr. Hamilton's Pills Give Results Quickly

Splendid for Headache, Biliousness, Backache and Constipation

To those who need something to stir up the system, to drive out the wastes to those who need a laxative medicine will act promptly upon the stomach and bowels. Dr. Hamilton's Pills are recommended. To enjoy good appetite, sound indigestion, to be brisk, full of pep, always at your best, regulate your system with Dr. Hamilton's Pills. Good for men, women and children. See at all dealers.

Victims Of Cancer

No Explanation As to Why Some Are Immune

No one knows whether cancer is an infection, though a few years ago Sir Thomas Oliver in a famous lecture gave examples which seemed to prove that there are "cancer houses." No one knows why the Thames Valley should be particularly cancer-baited, or why, among various occupations, lawyers should be more liable than doctors and clergymen. Nor can it yet be explained why chimney sweeps should be prone to the disease, while coal miners, who also live in an atmosphere of dust, are comparatively exempt. The freedom of the Red Insignia in the United States and Canada appears to be established, though all other races are liable. Yet no one can say why.—London Daily Mail.

Asthma Can Be Cured. Its suffering is as needless as it is terrible to endure. After its many years of roller of the most stubborn cases no sufferer can doubt the perfect effectiveness of Dr. J. D. Kellogg's Asthma Remedy. Comfort of body and peace of mind result with its use and nights of sound sleep come back for good. Ask your druggist; he can supply you.

Natural Resources Bulletin

Growth of the Province of Manitoba Since 1870

The Natural Resources Intelligence Service of the Department of the Interior at Ottawa says:

On May 11, 1870, the Hudson's Bay Company ceded to Canada the territory known at Rupert's Land, which included the provinces of Manitoba, Saskatchewan and Alberta. For the transfer of this large area Canada paid \$300,000. The first province formed was Manitoba, which entered Confederation in 1870. Fifty years later, in 1920, the value of the 14,600,000 acres of farm lands in Manitoba alone is given as \$401,110,411 by the Census Bureau. Farm buildings are valued at \$111,811,195; implements and machinery, \$67,847,599; and live stock, \$75,731,656. In 1870 the population of Manitoba was 25,925, while in 1921 it was 610,118, 248,502 being rural and 261,616 urban.

Complete In Itself, Mother Graves' Worm Exterminator does not require the assistance of any other medicine. It makes it effective. It does not fail to do its work.

To Handle Western Crop

Approximately \$20,000,000 is being expended and about 2,000 men are employed in increasing facilities at Fort William and Port Arthur for the handling of this season's crop. Elevator storage capacity is being increased 10,000,000 bushels by new construction. It is believed that with the increased facilities being provided it may be possible to handle as much as 8,000,000 bushels of wheat in a day. The largest amount handled in the past was about 6,000,000 bushels in a day.

Aviators at San Diego, Cal., poured gasoline down a 40-foot hose from one airplane to another, while both were flying at 90 miles an hour.

Motor Cycle Speeders

England Has New Type of Man in the Motor Cycle Speed Merchant

A new type of man has become somewhat common in England recently. He is the motor cycle "speed merchant" of which there are some 300,000 in the country, and who, attired in leather jackets and crash helmets, fly around the roads at high speed. Their craze for pace may be prompted by the fact that statistics go to show there are fewer accidents when riding at high speed.

At Brooklands race track a spill at 45 to 50 miles an hour means serious injury and the hospital, but at 60 miles an hour only a few grazes are received, and at 90 miles a "tumbler" does not even hurt himself. These are the statements of Doctor Gardner, who has had racing experience there since 1911, and although records for motor cycling on this track mount higher and higher, fewer riders are injured.

It is asserted that a man's body falls better than anything of equal weight, it travels some distance parallel with the ground and finally comes to a stop, thus preventing really serious injury.

One lighted gas jet consumes as much air as four people or a book agent.

SYMPTOMS OF DEBILITY

How to Tell Whether Your Blood Needs Revitalizing

The symptoms of "general debility" vary according to the cause, but weakness is always present. A tendency to perspire and fatigue easily, ringing in the ears, sometimes black spots before the eyes, weak back, vertigo, wakefulness caused by inability to stop thinking and unrefreshing sleep. The cause of the trouble may be some drain on the system, or it may be mental or physical overwork, sometimes insufficient nutrition due to digestive disturbance.

If you have any or all of these symptoms, try building up the blood with Dr. Williams' Pink Pills, and as the new blood courses through your veins there should be an increase in your appetite, a better digestion and a renewal of strength and vigor. You can get these pills through any dealer in medicine or, by mail, postpaid, at the box from The Dr. Williams' Medicine Co., Brockville, Ont.

Oil Refinery at Calgary

The \$2,500,000 refinery of the Imperial Oil, Limited, in Calgary, is rapidly nearing completion and the plant will be running in September with 400 skilled mechanics constantly employed. The company is already getting two trainloads of crude oil every week from Montana.

Baby Cutting Teeth Was Very Sick With Diarrhoea

When the baby starts to cut its teeth, especially during the hot weather, then is the time that the poor mother is under the stress and strain of great anxiety.

There is no remedy so safe and effective for the treatment of complaints of infants, as is Dr. Fowler's Extract of Wild Strawberry, no remedy that has had the endorsement of so many Canadian mothers during the past 78 years has been on the market.

Miss C. W. Myers, Clamwin, Man., writes:—"My baby girl was very sick with diarrhoea when she was cutting her teeth. I tried several different remedies, but nothing did her any good. She was getting worse when my mother sent me out a bottle of Dr. Fowler's Extract of Wild Strawberry. I gave her a few doses and the next day she was much better, and in a couple more days she was as well as ever."

Now, I always keep Dr. Fowler's in the house and recommend it to all those troubled with diarrhoea. Price 50c a bottle; put up only by The T. Milburn Co., Limited, Toronto, Ont.

Australian Native's Original

The aborigines of Australia are said to differ in several important respects from every other race of people on the earth.

BIG BEN CHEWING TOBACCO

Household Hints

Valuable Recipes For the Busy Housewife

Tutti-Fruitti Blocks

1 package cream cheese, 2 teaspoons orange juice, 1/2 cup sweet cream, 6 candied cherries, 1 candied apricot, 1 dozen chopped Sun-Maid seeded raisins, 1 strip citron, 1 teaspoon sugar, Nutmeg, grated lemon peel, 1 small piece of candied pineapple. Add cream to the cream cheese. Chop and mix the fruit, add nutmeg, sugar and orange juice. Mix with cheese mixture. Mold into a square mold and chill. When ready to serve, cut in blocks and serve with buttered toast for afternoon tea.

Meat Inspection

There were inspected slaughtering in Canada during the first five months of this year of 189,924 cattle, 114,921 calves, 61,052 hogs and 75,621 sheep; compared with 166,942 cattle, 142,684 calves, 78,189 hogs and 69,049 sheep in the same period last year.

Minard's Liniment for Dandruff

Canada Wheat Exports

Considerable Increase For June Over Same Month in Last Year

Wheat exported from Canada during June amounted to 239,238 bushels, value \$26,354,416, compared with 117,607 bushels, value \$18,158,491 in June, 1922. Of last month's exports, 121,044,992 bushels went to the United Kingdom, Belgium and Italy each took over two million bushels, and Greece and the United States each took over one million. The next largest importers were Holland and France. For the 12 months ending June 30, Canada exported 2,671,332 bushels of wheat, compared with 1,457,569 bushels during the previous 12 months.

Wheat flour exported in June amounted to 901,619 barrels, value \$5,385,069, against 784,825 barrels, value \$5,162,245 in June, 1922. The United Kingdom took 357,944 barrels of flour last month, the next largest customer being Germany, with 102,295 barrels. In smaller quantities Canadian flour found its way into nearly 50 different countries. Barley exports in June amounted to 613,191 bushels, compared with 1,423,402 bushels in June, 1922. Exports of oats were 2,355,938 bushels compared with 2,381,600 bushels.

In Iceland men kiss when they meet, but a man rarely kisses a woman.

Paring a corn is both risky and ineffective. It is much better to use Holloway's Corn Remover and eradicate them entirely.

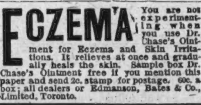

Spider Produces Little Silk

The amount of silk produced by each spider is so small that a scientist has computed that 652,522 would be required to produce a single pound of thread.

Minard's Liniment Heals Cuts

Saskatchewan Butter Production

Saskatchewan butter production during the first five months of this year totalled 2,676,516 pounds, as compared with 1,705,843 during the same period last year, according to a statement issued by P. E. Reed, Provincial Dairy Commissioner. This marks an increase of 65.9 per cent.

Stony Plain and District.

The Misses Eva and Kathleen Graham are spending a vacation at the home of Mr and Mrs T. W. Graden.

Some of the optimistic farmers in the district, whose places have been untouched by hail are figuring on forty bushels to the acre for their wheat.

Homestead Inspector Hagen returned Tuesday from a trip thru Drayton Valley and reports all good crops there, with no hail.

Stony Plain, S. D. 322 has been altered, by taking away NW 16, SW 21 & 28, Tp. 52, Tg. 27, w. 4, and adding these to Stony Plain Centre S. D. 381.

The International Bible Students Ass'n will hold its annual convention in Edmonton on Aug. 10, 11, 12. On Saturday evening, the 11th, Judge Rutherford, the well-known lecturer, will give an address on his favorite subject.

Radio receiving stations are licensed \$1.00 for the fiscal year and licenses automatically expire on March 31 each year. Radio receiving licenses may be issued to any person in Canada irrespective of nationality.

The Dept. of Agriculture will commence prosecution shortly of those produce merchants who have not applied for or taken out licenses under the provisions of The Produce Merchants Act.

Hail seems to have been hitting in the Trochu Valley this season and an old resident of Stony district, Mr. Peter Yost, has been pretty hard hit.

Dance on Friday Last.

A very enjoyable party and dance in honor of the Misses Eva and Kathleen Graham, of Edmonton, was held Friday night last at the home of Mr and Mrs Thomas Graden, at Comet. Games and dancing were indulged in till midnight when a dainty lunch was served.

Among the guests present were: Messrs S. G. Simmons, H. Laird, J. D. Miller, Sam Zucht, T. W. George, Ray, Alec, and Mr and Mrs Arthur Graden; the Misses Clara Kleven, Tillie Zucht, Alice and Sadie McKinlay, Sarah and Annie McKinlay.

The music was furnished by Misses Eva and Kathleen Graham.

Baseball Schedule.

Stony at home—
Aug. 5—Evansburg
12—Wabamun
22—Duffield

Stony's team away—
8—At Evansburg
15—At Wabamun
19—At Duffield

LOST—Bay Stallion, 8 years old; branded C Bay P on left thigh. Reward on return to Mr Pfeifer, Stony Plain.

Stony Plain and District.

Mr and Mrs. Kelly spent Sunday visiting friends in the City.

The Rifle Range was well patronised yesterday, the wind allowing some good scores to be made.

Miss Evangeline Cline, the circuit manager for Chautauqua, is meeting with quite a success in signing up the requisite number of guarantors for this splendid educational institution to re-appear in Stony Plain in the year 1924.

The San Phone number is Five-Two.

Services at St. Joseph Church

Sunday last seen the last of the series of Mission services which were being held at St. Joseph Church, Spruce Grove. These were held under the auspices of Rev. Father P. T. Hughes, assisted by several clergymen from Edmonton, and proved to be very successful, large numbers of worshippers being present at the morning and evening services, particularly on Sunday last.

Notes of the Fair.

A special prize has been donated by Mr. Chas. Freinf for foals by the Shire stallion Saxon Lad (12971) \$8, \$6, \$4. Dams of foals competing in this class must be re-bred to above stallion.

The attention of prospective exhibitors at the Stony Plain Fair is called to the fact that exhibitors do not need to be members to exhibit at this year's Fair. All necessary is to pay the entry fee and entrance fee.

The entries in the live stock classes this year will prove to be a record breaker, if present indications prove correct.

Stony Plain Fair, August 28 and 29.

Buried Alive

We have heard of "happy hunting grounds" for many things—but the storage battery graveyard is the latest.

Mr. John H. Miller of the local Exide Service Station, when telling us of this said: "If folks could realise the cost of the batteries that are thrown into the graveyard before their time—that are buried alive—they would be more careful with their own."

"Many times batteries are brought to my attention that are only a few months old, yet so far beyond repair that they must be discarded; and just a little care during their lives, would have prevented it."

"This generally is caused by negligence or home treatment for some suspected ailment."

"If folks want to take care of their own batteries, they should first visit the service station of some reliable manufacturer and learn how Battery men are glad to furnish this information."

"When they do this there will be fewer batteries 'buried alive' in the storage battery graveyard."

Here and There

The total cereal capacity of the Province of Ontario will reach 65,000,000 bushels by September of this year. The yield of 1924, the cereal crop, is expected to reach seventy million.

Immigration returns of the Canadian Government for the first five months of the present year show a one hundred per cent increase in immigration from the British Isles over the figures for the same period of last year.

The 1923 apple crop of the Okanagan Valley will amount to 4,821 cars according to the estimate of W. T. Hunter, district horticulturist. This is an increase of 20 per cent over last year and a record for the district. The apple crop for Kootenay and boundary districts will approximate 3,500 boxes.

A new high record of production was established by Canadian newspaper mills during May with 110,252 tons, an increase of nearly 10,000 tons over the month of April and 15,750 over May of last year. The daily production in May was 4,084 tons, the highest in the history of the Canadian industry.

Following the opening of the Band-Windermere Motor Highway, Lieutenant Governor Nichol of British Columbia and Ramsay Bruce were honored by the Kootenay Indians who made them an honorary chief and full officials of their tribe respectively. The Indian celebrations were held at Invermere in the beautiful Windermere Valley.

Several new air stations are to be opened in Ontario and Quebec in the near future for the purpose of extending the forest area to be patrolled by airplanes. A base is to be established at Ramsay Lake near Sudbury and from this point all Ontario work will radiate; operations being carried on at Orient Bay, Bemis Lake and at least two other substations not yet announced.

If the Canadian war-war exports of flour are considered as 100, the Dominion's average export total between 1921 and 1923 can be considered as 297. Comparatively, pre-war exports of the United States being rated at 100, its present export is at the rate of 147. This indicates that Canada has more than doubled her export trade in flour while the United States has increased its trade by 47 per cent. Before the war Canada exported 3,825,000 barrels, while at present her exports average 7,885,000 barrels a year.—"Journal of Commerce."

Mr. Georges Delmas, one of the most important personages of France, arrived in Montreal by the S.S. "Minneapolis" to take up residence at St. John's, Que. Georges is two and a half years old and was born in Touraine, a small town on the border line of Belgium and France. The journey from the old homeland, via Antwerp, Georges made alone but never out of sight of the watchful eyes of the officials and servants of the Company.

Major General Lord Lovett, a member of the Canadian Forestry Commission, and delegate to the British Empire Forestry Conference, Ottawa, said in connection with his investigations into Canadian forestry methods and applied science, "England has but a small forest area in comparison to Canada, nevertheless, her forests were depleted two-thirds at the onset of the emergencies of the War, and now we are determined to recover this loss by practical reforestation. We have been working at this for the last three years and expect to make a completion of our work in another year."
